FULL STACK WEB DEVELOPER

Developer with experience in React, Ruby on Rails, and JavaScript programming. Strong skills in project-management and leadership translate into simplifying complex concepts that turn user stories into streamlined applications. Maintains a balanced approach to fulfilling client expectations while maintaining team cohesion. Enjoys the detailed organization and planning of projects as much as the creative aspect of bringing apps to life.

TECHNICAL SKILLS

Ruby on Rails, React, JavaScript, SQL, HTML, CSS, Git, JSON, ActiveRecord, SQLite, PostgreSQL

TECHNICAL PROJECTS

Sanctuary - [Github Frontend](#) | [Github Backend](#) | [Demo](#) | [Wireframe](#)

An effortless way to plan a National Park getaway

- Implemented a responsive user interface employing React with Bootstrap for styling
- Fetched data from the National Park Service API then persisted using a PostgreSQL database
- Employed Ruby on Rails using the MVC pattern to maintain separation of concerns
- Utilized JSON Web Tokens and the BCrypt gem to store sensitive information client-side

Get Together - [Github Frontend](#) | [Github Backend](#) | [Demo](#)

Connecting like-minded programmers both on and offline

- Produced a React frontend that mimicked the original wireframe design using HTML, CSS, and JavaScript
- Collaborated on a team to build out a Ruby on Rails backend in VS Code utilizing MVC architecture
- Persisted seeded data using SQLite3 and ActiveRecord to design a schema based on models and relationships
- Manipulated Google Chrome Developer Tools to debug JavaScript within React components

Basic Bach - [Github](#) | [Demo](#)

Bachelor(ette) planning, made easy

- Saved user inputs through HTML forms to grow the database and provide data to ERB views
- Built custom RESTful routes in Sinatra to render specific views in the browser based on user actions
- Programmed CRUD functionality using Ruby on Rails to create a dynamic flow through the application
- Authenticated users with sessions and password validations before controller actions to maintain security

EXPERIENCE

Productions Plus

Lexus Product Specialist

Remote (Travel)

04/2017 - 02/2020

- Narrated to crowds across the US explaining the technological and safety advancements within the Lexus lineup
- Facilitated product demonstrations to educate guests and incentivize them to purchase a Lexus vehicle
- Increased lead generation year-over-year for 3 years total and earned the responsibility of working independently
